-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. Receipt is acknowledged of an Information Disclosure Statement, filed 23 March 2004, which has been placed of record in the file. An initialed, signed and dated copy of the PTO-1449 form is attached to this Office action.

Drawings

2. The drawings are objected to because in figure 1 the lines labeled 4 and 29 are rough and blurry, furthermore, it is not clear from figure 1 as to exactly what is being depicted by the lines labeled 4 and 29. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to

Art Unit: 3721

show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because:

- a. at page 2, line 13, the phrase "the apply" should perhaps be --to apply--;
- b. at page 4, line 16, the phrase "a annular" should perhaps be --an annular--;
- c. at page 8, line 8, the phrase "transmission 18" should perhaps be --transmission 19--.

Appropriate correction is required.

Claim Objections

4. Claims 3 and 5 are objected to because:

- a. in claim 3, line 2, "a annular" should be --an annular--;
- b. in claim 3, line 4, "turns" should be --turn--; and

Art Unit: 3721

c. in claim 5, line 2, "and" should be --an--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 4-6 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitation "the rotor" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5, line 2, the use of the pronoun "its" renders the claim vague and indefinite. It is suggested that the language "the handle has at its outer end" be changed to --the outer end of the handle has--.

Claim 6 recites the limitation "the rotor" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "one of the arms" in line 2. There is insufficient antecedent basis for this limitation in

Art Unit: 3721

the claim. Additionally, it is unclear from claim 9 as to which element possesses "the arms", thereby rendering the claim vague and indefinite.

These and any other informalities should be corrected so that the claims may particularly point out and distinctly claim the subject matter which applicant regards as the invention, as required by 35 U.S.C. § 112, second paragraph.

Allowable Subject Matter

7. Claims 1-3, 7 and 8 are allowed.

8. Claims 4-6 and 9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the attached form (PTO-892) are cited to show strapping and pneumatic tools. All are cited as being of interest and to show the state of the prior art.

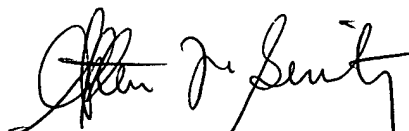

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen F. Gerrity whose telephone number is (571) 272-4460. The
